RSVP  
Required

**Join us to explore the future of campus safety, security technology, and regional collaboration.**

*This summit is designed for K-12 and higher education leaders seeking to learn about emerging technologies and best practices in video security, AI-powered investigations, access control, emergency communications, real-time intelligence, and connected community safety networks.*

 **Featured Sessions**

Speaker	Main Topics
	Video management, cloud security, access control, sensors, intercoms, body-worn cameras, LPR, and emergency communications
	AI-powered investigations, natural language video search, real-time alerts, camera modernization, RTCC tools, and deployment options
	School and law enforcement collaboration, secure video sharing, connected intelligence, grants, and regional safety best practices

*This Motorola-sponsored event includes lunch, partner presentations, technology discussions, and Q&A on practical campus safety modernization strategies.*

**Why Attend?**

- Learn about modernized security
- Improve AI-powered investigations
- Strengthen emergency response
- Detect safety risks faster
- Partner with local law enforcement
- Explore safety funding opportunities
